

AQUA FARM GLOBAL -

SPECIAL EXPOSITION OF AQUACULTURE
WITHIN SEAFOOD EXPO RUSSIA,
THE MAIN FISHERY EVENT OF EAEU COUNTRIES

**MEETING PLACE FOR ALL PLAYERS OF
AQUACULTURE INDUSTRY**

CO-LOCATED WITH

16-18 SEPTEMBER '26

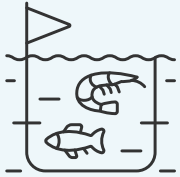

SAINT PETERSBURG, EXPOFORUM EC

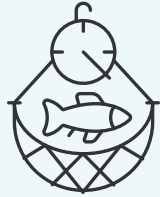

In 2025, Seafood Expo Russia for the first time featured a special AQUA FARM GLOBAL exposition dedicated entirely to fish farming: commercial aquaculture and mariculture, cage farms, RAS, equipment, breeding and genetics, fish seed, feeds and veterinary medicines, services and technologies, etc. The special exposition grew out of “Aquaculture” sector, which had annually shown the highest growth rates and attracted the largest number of visitors.

The central element of the sector is a RAS with exhibitors' equipment, operating under a limited biological load with live fish. In 2026, due to the development of the project, there will be two such systems.

HOW IT WAS?

The special exposition demonstrated a new paradigm for the development of the sector, based on a combination of best international practices and the rational use of Russia's unique natural conditions.

Their products, technologies, and services were presented **by exhibitors from 14 regions of the Russian Federation**, ranging from Kaliningrad to Vladivostok and from Murmansk to Astrakhan. In addition to domestic companies, enterprises from **China, Turkey, Belarus, Venezuela, Armenia, and Spain** took part in the exposition.

100+ EXHIBITORS

3 000 m² EXPOSITION SPACE

7 FIELD-SPECIFIC SESSIONS

9 236 VISITORS

7 THEMATIC AREAS

37 SPEAKERS

Every fifth visitor of Seafood Expo Russia was interested in aquaculture section.

HOW IT WAS: BUSINESS PROGRAM

The special exposition is followed up by **rich and practice-oriented business program** aimed at finding solutions of real-life challenges of the industry using both domestic tools and technologies and best foreign practices. It combined research, technology and economic development issues. The speakers are practicing industry professionals.

Exhibitors may participate in business program on special conditions.

AMONG TOPICS 2025:

- Genetics and reproduction of aquaculture objects
- Feed base for aquaculture development
- Production and technological solutions for aquafarms and cage farms
- Use of neural networks and artificial intelligence in aquaculture

BUSINESS PROGRAM SCHEDULE 2025
